

We are in a quality-of-life crisis for older adults and their caregivers!

44.9% of assisted living residents had limited or no social engagement and 24% exhibited signs of depression according to the CIHI (2021-2022)

What if there was a way to **entertain, educate** and **engage** older adults that also helps **relieve stress** on family caregivers and support staff?

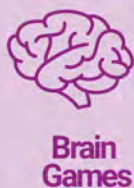

Introducing Mindy!

Mindy is a 'social' robot here to help solve the loneliness epidemic among older adults.

Residents and staff love Mindy!
96% of residents wanted to see Mindy again after their first visit.
(Source: 2021 pilot study).

Mindy's Features:

Retirement Homes Love Mindy

"We were delighted to welcome Mindy for a 4-week visit at Seasons Royal Oak Village. We continue to embrace opportunities to learn about new technologies to support and enhance engagement and independence."

- Stephanie Sanborn, Seasons Retirement Communities
